Jana Talal Mufti

Computer Science Student | AI • Cybersecurity • Web Development | Jeddah, Saudi Arabia | 0567985548 |
jana.mufti@gmail.com| LinkedIn: https://www.linkedin.com/in/jana-mufti-80632827a|

PROFILE

Motivated Computer Science undergraduate pursuing a double major in Artificial Intelligence and Cybersecurity. Strong foundation in programming, web development, and networking concepts with proven problem-solving and time management skills. Experienced in building web applications, conducting cybersecurity research, and applying data structures to real-world simulations. Passionate about exploring AI technologies, strengthening cybersecurity practices, and contributing to innovative technology projects.

CORE SKILLS

Programming Languages: Python, Java, C++, JavaScript
Web Development: HTML, CSS, Node.js, Flask, Django, FastAPI
Databases: MySQL
AI & Data Technologies: Machine Learning, TensorFlow, Data Analysis, Data Science, Big Data
Cybersecurity & Systems: Ethical Hacking Fundamentals, Kali Linux, Networking Concepts
Tools & Platforms: Git, Git Bash, Docker, Postman, Figma, Visual Studio Code, VirtualBox, Linux (Ubuntu)

SELECTED PROJECTS

Phishing Attack Analysis and Prevention

Conducted cybersecurity research on phishing techniques such as email phishing, spear phishing, vishing, and smishing, and evaluated prevention strategies including user awareness and security tools.

Comparative Analysis of Modern CPU Scheduling Frameworks

Analyzed modern OS scheduling frameworks (Skyloft, ghOSt, uProcess/Vessel) and compared their architecture, performance, and adaptability for cloud and real-time systems.

Otaku Meter — Anime Tracking Web Application

Developed a web application for discovering and tracking anime, featuring user authentication, watchlists, search functionality, ratings, and interactive content pages.

Hospital Data Management System — C++ Simulation

Built a C++ simulation of a hospital management system using linked lists, queues, stacks, and priority queues to manage patient records and emergency cases.

EDUCATION

Effat University — Bachelor of Science in Computer Science (AI & Cybersecurity)
Expected Graduation: December 2026
GPA: 3.35 / 4.0

HACKATHONS & COMMUNITY

Hajj Hackathon – (2026)

CERTIFICATIONS

Robotics Course, Ethical Hacking Course, Machine Learning Course, Cisco Networking Fundamentals, JavaScript Programming Course
